Hello Anniston City Schools. Thank you again for being patient with us while we continue to work through educating our students during these unprecedented times.

We promised in August that we would come back to you with updates at the beginning of the second nine weeks. We have continued to monitor the covid cases throughout the city and our school system. As a result we are still erring on the side of cautions and have some additional updates. Beginning on October 19, 2020 all students whether attending face to face or virtually will be supported on Fridays virtually only!

The calendar currently has the following days scheduled as E-Days:

- October 26, 2020
- November 30, 2020
- February 5, 2021
- March 8, 2021
- April 26, 2021

These days are scheduled for professional development only. Students are still required to work on assignments that will be addressed upon returning to school the next school day.

All Friday's beginning the week of October 19, 2020 will be considered virtual E-days. Students will be supported through enrichment activities, remediations activities, small group sessions. Counseling sessions, and parent communication. This will also allow us to increase the opportunities to sanitize our buildings for the safety of the children and the staff. More information will be forthcoming concerning the Virtual E-Day schedules.

We will continue to update you throughout the year if there are additional changes. Please reach out to your school principal for further information, or questions.
